

## TKIS Fees and Levies Policy

### CONTEXT

The Kilmore International School is a Non-Government, non-denominational private education provider. School fees, levies and charges set by the School are in place to assist in the funding of both recurrent and capital costs. The School receives proportionate funding from Commonwealth and State recurrent grants, such funding supplements the School's income to meet its annual operating costs.

### PRINCIPLES

The Kilmore International School fees are based on:

- The level of funding provided by the Government
- The level of supplementary income necessary to provide, maintain and improve existing services, whilst maintaining and developing facilities and programs to meet the needs of contemporary education
- Annual review of fees and charges by both the Finance Committee and the School Board
- The School's capital improvement program
- Student enrolments and long term financial forecasts
- Movements in consumer price index, especially the education sector, and general fluctuations in costs and prices

The final deduction will be in October of the year of study.

The first deduction may be an estimate, while the remaining deductions will be the account balance divided by the number of instalments remaining for that year of study.

A processing fee of \$25 will be charged in each instance there is a late payment.

The Monthly Instalments may be deducted from either a Bank Account or a Credit Card. A form “TKIS - Fee Payment Options for Domestic School Fees” is available in CareMonkey. Unless a current form is held by the School, it will be deemed that the Upfront payment option has been selected.
